lay, give the course of the New York Franci co papers give the following of

The 11 A. M. New York dispatch quoted overnment securities as follows: Five-twenties of '81, 112; of '62, 111 .; of '61, 110; of '10, 1111/2; new issue, los ; 10-40s, ex-interest, 9934: 7-30s, 1st series 10714; 2d and 3d series, 10714; 5-20s, new

The following were the closing quotaious of this market to-day: 

The New York World, of the 4th, refers to financial affairs as follows: The money market continues easy and abundanlly supplied with funds seeking employment in short loans. Rates on the fiscal year ending June 30, 1866; n stocks and infectioneous securities.

Prime indorsed notes are discounted at 6 to 7 per cent.

The foreign exchange market is dull and inactive. There is, however, more armness in rates and a scarcity of bills.

The following are the quotations at the close: On London, at sixty days, prime bankers', 109 to 109%; do., ordinary bankers', 109% to 109%; do. at three days' sight, 110 to 110'; on Paris, at sixty days, prime bankers', 5.16'; do at three days' sight, 5.13'; to 5.17'; Hamburg, at sixty days, 36 to 6.17'; Hamburg, at sixty days, 40 to 6.17'; Hamburg, 40 to 6 .; Bremen, 78 , to 78%; Amsterdain, department of trade.

The gold market has been dull but firm throughout the day. The price opened at 141, the lowest point, and advanced to 1412, closing at 1413 in the gold room at 3 r. M., and 1414, sales and bid, at 5 r. M., in the street. Cash gold is plentiful. Loans were made flat, and I to 3 per cent. was paid for carrying. The clearances to-day were \$35,503,000.

the World, of the 4th inst., says: The daily quotations of United States and of British bonds show the respective values of their credit in the markets of the world, and justas the barometer noies the changes of the weather, so does the Stock Exchange show the fluctualions of public opinion.

tions, and we there find British consols quoted at 915, and United States five twenties at 712, the former paying three per cent. on each £100, sold for £91 12 6d; the latter, six per cent. on each £100, sold for £71 lfts. The investor of £100 in British consols receives a yearly interest of £317s per cent.; the latter paying interest in the ratio of £3.77 per cent. to 1 on of the former. That is, that the credit of the British government is more than two and one-half times as great as the credit of the United States. We are not now 'speaking of the respective resources of each country, or of their ability to pay, but of the marketable value of the credit
